

REMEMBRANCE DAY ACTIVITY

- 1** All you need is red and green (or black) finger paint, a paint pallet (scrap cardboard or plastic lids work great!) to put together this beautiful Remembrance Day craft.
- 2** Have your students stamp their thumb with red paint and make 4 poppy petals in a circle, then add a circle by stamping their fingertip into the green or black paint and adding it to the centre of the poppy.
- 3** Take this simple art activity a step further by having your students arrange their own fingerprint poppy in a giant circle to create a classroom poppy wreath.
Alternatively, fold a piece of paper in half and create beautiful card decorations!
